Summary

Results-driven Data Analyst with hands-on experience in SQL, Python, Excel, and Power BI, skilled in EDA, statistical modeling, regression analysis, and ETL processes. Adept at building interactive dashboards and translating complex data into actionable insights to support data-driven decision-making in fast-paced environments.

Skills

Programming & Querying: SQL, Python, MySQL

Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn

Data Visualization & BI Tools: Power BI, Tableau, Power Query, DAX, Interactive reports, Data Storytelling

Cloud & Other Tools: AWS Cloud Practitioner, Advanced MS Excel, Google Sheets, Jupyter Notebook, GitHub

Analytical Abilities: Data Cleaning, Data Modeling, EDA, Statistical Modeling, Regression Analysis, A/B Testing, Hypothesis Testing, Descriptive Statistics, ETL, Data Pipeline, Segmentation, Data Warehousing, Forecasting, Insight Generation

Experience

Business Analyst Intern

Jun 2025 – Dec 2025

Quantum IT Innovation, Remote

Tools: Excel, Python, Power BI, Wireframing & Documentation Tools

- Collaborated with **5+ cross-functional teams** to gather, analyze, and document business and data requirements, delivering **10+ BRDs, FRDs, SRS, and DFDs** and reducing rework by **20%**.
- Analyzed workflows using data-driven methods and implemented process improvements, increasing task efficiency by **15%**.
- Prepared weekly analytical reports, tracked KPIs, and ensured timely project delivery through structured stakeholder communication.

Data Analyst Intern

Jun 2024 – Sep 2024

Shivshakti Distributors, Kolhapur, Maharashtra

Tools: Python, NumPy, Pandas, Excel, Power BI

- Collected, cleaned, validated, and analyzed **100,000+ records** using Python (Pandas, NumPy) and Excel, improving data accuracy by **30%**.
- Performed customer churn analysis using EDA, segmentation, regression analysis, forecasting, and hypothesis testing to generate actionable business insights.
- Built ETL pipelines and developed interactive Power BI dashboards with **10+ KPIs** to support real-time, data-driven decision-making.

Projects

Customer Shopping Behavior Analysis | Python, SQL, Power BI | [GitHub](#)

Mar 2026 – Apr 2026

- Analyzed **7,900+ customer transactions** using Python (Pandas, NumPy, Seaborn) and PostgreSQL (**10+ SQL queries**), improving data accuracy by **45%** and identifying revenue drivers across demographics, discount impact, and loyalty segments.
- Developed an interactive Power BI dashboard with KPIs (revenue, top products, customer loyalty), improving decision clarity by **30%** and supporting retention strategies.

E-Commerce Sustainable Growth Analysis | Python, Pandas, NumPy, Matplotlib, Seaborn | [GitHub](#)

Feb 2026 – Mar 2026

- Analyzed **100,000+ Amazon e-commerce records** across 5 analytical dimensions — financial performance, customer insights, logistics, product management, and returns — using Python (Pandas, NumPy).
- Performed end-to-end ETL and data cleaning (handling nulls, deduplication, feature engineering) and conducted EDA including Pareto analysis, B2B vs. B2C segmentation, price-band analysis, and cancellation trend analysis to generate actionable business insights.
- Built **15+ Matplotlib/Seaborn visualizations** and authored strategic recommendations on reducing cancellation rates, optimizing pricing in the 500–1000 band, and expanding B2B segment — improving operational decision-making clarity.

Credit Card Analytics Dashboard | Power BI, Excel, DAX | [GitHub](#)

Jan 2026 – Feb 2026

- Built an end-to-end Credit Card Analytics Dashboard in Power BI analyzing **50,000+ records**, cleaning and transforming data via Power Query and DAX, improving data accuracy by **~25%** and creating **10+ KPIs**.
- Designed interactive dashboards with customer segmentation and weekly trend analysis, reducing manual reporting effort by **~40%** and enabling data-driven decisions.

Awards & Certifications

- **HackerRank SQL Golden Badge & SQL (Advanced) Certificate (2026):** Advanced SQL – joins, CTEs, window functions, query optimization.
- **The Complete Python Bootcamp: Zero to Hero – Udemy (2024):** Python, Pandas, NumPy, Matplotlib, file handling, and automation.

Education

MBA, Analytics and Marketing

Graduated: 2025

Chhatrapati Shahu Institute of Business Education and Research, Kolhapur

- Relevant Coursework: Business Statistics, Data Mining, Marketing Analytics, Operations Research, Data-Driven Decision Making
